Dear Harold,

I appreciate so very much your letters, but in particular the one concerning other people that have had heart trouble and other types of serious illnesses and how all of you have recovered so well.

My wife said I should frame this letter because it is the best written and most heartwarming letter that I have received during my illness. I am recovering well and feeling fine. I am going to the office from time to time as well as taking some rehabilitation exercises through the hospital program. I expect to be back full-time within two to three weeks.

I have not gotten into the controversy of the autopsy or had much time to think about it, but any information I find that I think will be interesting for your study will be forwarded to you.

Your friend,

HENRY WADE
